The original Bible Unity Reading Plan takes users through God’s Word in a year following a chronological track, along with a reading from the other Testament. This version of the plan adapts the reading schedule for those who want to read the New Testament in the original Greek. Features of the plan include:

- Covers the entire Greek New Testament in a year.
- Attention to the difficulty of the Greek text: Selections from Luke and Hebrews, for example, are shorter than those from John.
- Chronological sequencing: Old Testament history is covered from January 1 to mid-October; in the remainder of the year, the Old Testament readings are selections from Psalms and Proverbs. New Testament history is covered from mid-July to the end of the year; the first part of the year includes three Gospels, the general epistles, Colossians, Ephesians, and Romans.
- Those who know Hebrew can read a select number of each day’s verses in the original language. Every Old Testament reading includes at least 10 verses in Hebrew.

Helpful features of the original plan retained here include:

- Make-up days each month. The plan schedules only 25 days of reading per month, allowing you to read something else on Sundays, or to catch up easily if you miss an occasional day.
- Minimal page-flipping: Most days readings are from only two different passages.

May the word of Christ dwell in you richly.
